

PMI Project Management Ready™ **Helping Students Show They Are Ready to Manage Projects**

The ***PMI Project Management Ready***, PMI's newest certification program, introduces high school and post-secondary students to the concepts and skillsets of project management. The PMI Project Management Ready certification program presents the tools needed to apply this knowledge to a wide range of career paths, and to the student's day to day activities. Developing project management skills will serve students throughout their lives.

The PMI Project Management Ready certification is a way for students to immerse themselves in the project management industry and connect with this passionate community of professionals. This is an entry-level certification that does not require any prior work experience in project management and/or may not have the minimum educational hours needed to take the Certified Associate in Project Management (CAPM)® exam.

"Earning an industry-recognized certification gives students a competitive edge as it demonstrates knowledge and competencies, which is a major asset as they transition to postsecondary education, internship opportunities, the military, or employment," said Michael DePrisco, Vice President, Global Experience & Solutions at PMI Global Operations. "Everyone can benefit from project management skills, and the PMI Project Management Ready certification is the perfect entry point for students into the project management world. We hope students who pursue this certification see this as the beginning of their career in our industry."

The PMI Project Management Ready introduces the student learners to:

- Project Management Fundamentals and Core Concepts
- Traditional Plan-Based Methodologies
- Agile Frameworks/Methodologies
- Business Analyst Frameworks

The PMI Project Management Ready is aligned with Certiport's "Learn, Practice, Certify" model. Courseware, practice tests and the certification exam will be offered through Certiport. The courseware was launched in October, with the practice test and certification exam available in December 2020.

Interested individuals, schools and test centers may obtain pricing details about the Project Management Ready certification, practice tests, and learning materials, all available from Certiport, at gocertiport.pearsonvue.com/PMI.
